

AFMC PUNE

EVENT REPORT

The inaugural edition of AFMC-PRAC-Sancheti Cadaveric Regional Anaesthesia Workshop was conducted at AFMC in collaboration with Dept of Anaesthesiology and Dept of Anatomy, AFMC, Sancheti hospital on 24 August 2025 under the aegis of AORA India.

Total of 36 delegates from various medical colleges across Pune participated in this workshop. The faculty members, under the leadership of Dr Sandeep Diwan, chairman CRAB ensured a safe and nurturing learning environment.

The day began with the cadaveric oath, honouring those who donated their bodies to the cause of science. Thereafter, four separate stations on major regional blocks, scanning and injection techniques were conducted, each one focusing on one particular part of the body.

The workshop amalgamated academic teaching with hands-on cadaveric practice, with the delegates being given one on one guidance on various aspects of regional anaesthesia including sonoanatomy, cadaveric anatomy, cadaveric scanning and needling techniques.

The workshop concluded with an interactive discussion with the expert panel, offering participants a unique opportunity to clarify all their queries with real time demonstrations.
